HELP! In Case of Accidents.

Drowning. 1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms, from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils and pressing the "Adam's apple" back, (so as to close entrance to stomach) direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after hours of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give WARM drinks, or spirits in teaspoonfuls, fresh air and quiet.

Burns and Scalds. Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive or linseed oil, plain or mixed with chalk or whiting.

Lightning. Dash cold water over a person struck.

Sunstroke. Loosen clothing. Get patient into shade and apply ice-cold water to head.

Mad Dog or Snake Bite. Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife.

Venomous Insects' Stings, etc. Apply weak ammonia, oil, salt water or iodine.

Painting. Place flat on back; allow fresh air and sprinkle with water.

Electricity. Release from current, not touching body or wire with hands, metal or a wet stick. Handle body by its clothing, with rubber gloves and shoes if possible, if not, cover hands with dry woolen cloth, and stand on dry boards. Then induce artificial respiration as in a case of drowning. Rub limbs and massage body.

Tests of Death. Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain, if alive, it will close up.

Cinders in the Eye. Roll soft paper up like a lamplighter and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

Fire in one's Clothing. *Don't run* — especially not down stairs or out of doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down so as not to inhale flame.

Fire in a Building. Crawl on the floor. The clearest air is the lowest in the room. Cover head with a woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Fire in Kerosene. *Don't use water,* it will spread the flames. Dirt, sand or flour is the best extinguisher; or smother with woolen rug, table-cloth or carpet.

Suffocation from Inhaling Burning-Gas. Get into the fresh air as soon as possible and lie down. Keep warm. Take Ammonia, — twenty drops to a tumbler of water, at frequent intervals.

ANTIDOTES FOR POISONS.

First. Send for a Physician.

Second. INDUCE VOMITING, by tickling throat with feather or finger, drinking hot water or strong Mustard and water. Swallow Sweet Oil or whites of Eggs.

Acids are antidotes for ALKALIES, and *vice versa*.

BUSINESS LAW IN DAILY USE.

The following compilation of Business Law contains the essence of a large amount of legal verbiage:

A note by a minor is void.

It is a fraud to conceal a fraud.

A note made on Sunday is void.

Ignorance of the law excuses no one.

A contract made with a minor is void.

A contract made with a lunatic is void.

The acts of one partner bind all the rest.

Notes bear interest only when so stated.

An agreement without consideration is void.

A receipt for money is not always conclusive.

The law compels no one to do impossibilities.

Contracts made on Sunday cannot be enforced.

Signatures made with a lead pencil are good in law.

Principals are responsible for the acts of their agents.

No consideration is sufficient in law if it be illegal in its nature.

Checks or drafts must be presented for payment without unreasonable delay.

If the time of payment of a note is not inserted, it is held payable on demand.

A note obtained by fraud, or from a person in a state of intoxication, cannot be collected.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

A note indorsed in blank (the name of the indorser only written) is transferable by delivery, the same as if made payable to bearer.

Each individual in a partnership is responsible for the whole amount of the debts of the firm, except in cases of special partnership.

If a note is lost or stolen, it does not release the maker; he must pay it, if the consideration for which it was given and the amount can be proven.

Checks or drafts should be presented during business hours, but in this country, except in the case of banks, the time extends through the day and evening.

"Value received" is usually written in a note, and should be, but is not necessary. If not written it is presumed by the law, or may be supplied by proof.

If one who holds a check as payee or otherwise, transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

The maker of an "accommodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accommodation of the holder) is not bound to the person accommodated, but is bound to all other parties, precisely as if there was a good consideration.

VALUES OF FOREIGN COINS.

The following estimate, by the Director of the Mint, of the values of Foreign Coins, is proclaimed by the Secretary of the Treasury, in pursuance of the provisions of section 25 of the Act of August 27, 1894, to be the values of such coins in terms of the money of account of the United States, to be followed in estimating the value of all foreign merchandise exported to the United States on or after January 1, 1915, expressed in any of such metallic currencies:

DISPLAY EXAMPLES.

TO FIND THE LENGTH OF DAY OR NIGHT.

At any time of the year add 12 hours to the time of the sun's setting, and from the sum subtract the time of rising for the length of the day. Subtract the time of setting from 12 hours, and to the remainder add the time of rising next morning for the length of the night. These rules are equally true for apparent time.

STANDARD TIME.

In this Almanac the risings and settings of the Sun and Moon are given in local mean time, as heretofore. The Tides are given in STANDARD TIME. Light face figures indicate A. M. time; heavy face P. M. time.

To change to STANDARD TIME add or subtract the *minutes* as given below, according as they are marked *plus* or *minus*.

Standard Time Divisions as adopted by the Railroads.

EASTERN STANDARD—75th Meridian. Canada, between Quebec and Detroit,—U. S. east of Buffalo, N. Y.; Pittsburg, Pa.; Wheeling and Huntington, W. Va.; Bristol, Tenn.; Charlotte, N. C., and Augusta, Ga.

CENTRAL STANDARD—90th Meridian. West from "Eastern" limits, as above, to Broadview, Canada; to the Missouri River in Dakota; North Platte and McCook, Nebraska; Wallace and Dodge City, Kansas; Toyah and Sanderson, Texas.

MOUNTAIN STANDARD—105th Meridian. West from "Central" limits to Heron, Montana; Ogden, Utah; Needles and Yuma, Arizona.

PACIFIC STANDARD—120th Meridian. West from "Mountain" limits to coast.

that to Queen. Miss K. talks very bit
hard of Venizelos & his "small following"
which not representative at all of Greece.
King entirely right, & Germans perfect
Miss K. hopes they will shortly push the
Anglo-French out of Salonika into the sea.
No fear of Bulgarians while Germans are
with them. Please not understand her
sentiments deflect those of King & Queen.

Later call at Consulate, find Waller

I tell of the problem of the block
across Spensiforos St. which
the Ministry appears to be a-
bout to sell. Mr. Michilidakis
~~is~~^{seems} interested & asks Kouronniotis
to take the matter up with Johannides.

Returning home find note from
Miss Kontostarlon saying that the Queen
will receive me at 4 p.m. Dress in
cutaway & tall hat & go to Palace.
Rec'd by Queen Sophia in room so. of
main Hall. She tells me Armon had
sent ck. of 2000 in the letter through.
She asks about him & Ellen & we talk
more or less jokingly of many things, there was
being avoided. I tell her of the matter of
the lot opposite & she says she will help.
She takes me out to see her new garden
& we walk all through it - it is really
very fine - meeting also the King with me
in course a few minutes. He seems in
good health & spirits. She a little depressed.

Learn on second call the awful news that prices bid were 31.50 (#14 = 9000 7.50) 28.50 (8.50) 25.50 (7.00) & 21.50 (6.45). What we shall do I don't know, Papafraanko thinks the prices feasible & that we can resell at a profit. I doubt it, & haven't the cash for such an operation anyhow. Or he believes we may be overbid tomorrow or next day by the runners up.

I greatly fear that entering the auction at all was a mistake. Perhaps prices would have been much lower & we could have made a supplementary bid ^{later} ourselves if we wished. I do certainly wish Papaf.'s man had not gone to the auction.

Mea culpa.

The fact was really known in Athens early + reported in anti-Venizelist papers. The Venizelist press kept silence.

Adhesion of Vice Adm. K. to the movement will be very important, confirming in people's minds its "national" as against personal or political character, for the Admiral in the national naval has with prestige as a commander second only to the King's.

Konradinos' departure to lead the
national movement. They go it is un-
derstood first to Crete, then to other
islands, finally to Salonica where the
capital of their temporary independent
government will be. Macedonia & all
the Aegean islands are expected to form
the provisional state. There is to be general
mobilization & as early as possible an active
share in Macedonian military operations.
In the Patria a very fine interview with Venizelos.

Ther Wednesday, Sept. 27, 1916 Wea

Beautiful clear day -
No work = "Elevation of the Cross."

I take full holiday. p.m. wheel to
New County with CW. B. by upper
road - which is very poor for wheeling.

The Venizelos movement makes, spite
of anti-V papers' assertion, clearly a good
impression.

As a small example,
Panaq. tells me the Doctōr & P. Tsilios lead-
ers of the local Government begin to go over
& the Doctōr talks of going himself to Salonica

Leading articles of the "Eposōs" & "Ephemeris"
in Kifissia treat the movement very respect-
fully. The St. Hrisoa has one of its quibbling
editorials on the text of Venizelos' statement con-
cerning his purpose concluding that this is re-
ally to make ^{more} difficult the King's position

General Dankle goes ^{to} join Venizelos' Konra-
dinos. He will be third member of provisional gov't.

A perfect early autumn day.

Two long walks. make a record of paths & roads. Nothing serious accomplished.

Paprus read eagerly these days.

C.W.B. receives excellent large photo of MinA which he doesn't show to the D's & I am not shown one only because I happened to inquire whether he had found his mail - I had put it in his window. Whence inference.

The Venizelist proclamation appears: a review of the government's official policy of the past 18 mos., an expression of hope that the King will soon yet lead the national movement.

Adhesion of Island Hydra to the revolution reported

The King seems still perfectly determined not to follow the Venizelist policy. He is reported ^{to} have ~~dismissed~~ ^{dismissed} the Guards who talked frankly to him in breach of discipline

Good day, very little wind, slight haze
Rin bath down & bathed then before sunrise
7.45 to 10.55 excursion up the path through Anaploga & along no-slopes of Peuketomphia. a little less than an hour from here find accidentally bits of a Roman aqueduct clearly that of Hadrian from late Stymphalos to Corinth. Rather pleasant, though there remains a stone was doubtless known to travelers.

p.m. work on record of roads & paths & organize Erechtium papers. Evy. with Urdell about prospects. Roommate speaks of writing Scott & then (and accidentally - not intentionally, nor intentionally I hope - Osem) actually writes MinA. Whence further inference.

Address of Isobor & Chios to the independent movement announced, with overthrow of Athenian central authority.

p.m. CWB & I wheel, rather late, to Kenchrae & Baths of Helen (neither of us had seen them before) thence to Isthmia & New Corinth where we had a very poor dinner at a restaurant with conspicuous ^{large} pictures of Venizelos, Kon-
 admirals, the King ^{by the cannon} & a citizen whom I do not recognize; & smaller pictures of the late King & Queen Olga & the present King & Queen. About $1\frac{1}{2}$ km before New Corinth I lost from my bicycle the nut holding the sprocket. Left the wheel at Pelspidos' hotel. We walk home for New C. & arrive about 10 p.m. & have another dinner, much better than the first.
