 then back to right one. Though splended
 gorges, high banks, cliffs, well wooded,
 rushing river. Bad washouts in places,
 quick repairs. Roller in river. Two very
 fine gorges with big open valley between,
 grand boat basin for river. Then up & down
 country, 3/4 day, fairly open, splended
 wide views. Stopped early for lunch on
 hillside hoping others would overtake us
 before Gostivar & tell us about church, but
 as they didn't come, we went on & saw on
 outskirts of G. the ch. of St Demetius, re-
 built but with a great deal old. Very fine
 dome with Pant. & saints & rainbow effect,
 dark rich coloring. All these churches have
 carved etc. Proved to be wrong church
