back c 6.30 for drinks in garden.
Dined out there & wrote T. in eve after
making up diary.

3. Fine. Got away c 9.30 after very comfort-
able 2 nights. Road via Montpellier,
big town, through good country - ^{Narbonne} fine roads
to Carcassonne, c. 200 km. Here we arr.
before 1. Lunch at cafe on boulevard, good
but should have gone right to Cité -
Hotel there. Soon back & up to Cath. The
town & walls are splendid & very im-
pressive. Good ranges in church. Ev. part
Rom. - E is late Goth. addition of cha-
pels, part of list. monast. Fine rose
windows in transepts & fine glass in
apse, good & old. Back to Chateau de

Excellent guide for walls. Into many
towers & about $\frac{1}{2}$ the circuit - ending w.
high towers & fine view. Excellent - idea
of double fortif, moat etc. Did not get
away till 3.30-4 and made for Albi
Here we expected to spend night, but it
was very hot in a hollow & hotel most
improving so had tea & pushed on
to Villefranche. Delightful country,
well wooded, green & fertile. A nice
little place on river. To Modern
funny little hotel over cafe but did
very well in comic wares & general
bath for our use. Very quibbly, but beds
clean. Terribly windy night nearly
blew the place down.

4. Fine, cool. Break. in good time off
for Perigueux. Decided to do preb.
Dord. area as it was so near, so
got by road to Le Monestier, to Mues

which we finally found. Country most
impressive w. castles & rock shelters. At
mues. Kiefer - Maurice Vidal who showed
us all types in collection & then took us
up to St. Christoph. which was later
made into med. fortress. Had a most
interesting time & stayed long, then to
Les Eyzies to Cio Magnan for sumptu-
ous late lunch. Did Mues. Thoroughly
first coll. of such things. In part
of cast & so in restaurant. Found
car had oil leak due to careless use
of jack so it took some time to get
it ready - we had coffee in a terrace
meanwhile. Didn't get away till
after 5 - had a long run to Angou-
leme. Couldn't get in at 3 P.M.
so went to France - had 3 funny
rooms as good ones were taken by
huge wedding party. Pseudo-

noon so went to 3P. for dinner. Back
c. 10 + music stopped 12.30.

5. Shower early, but drying off by 8 or
so when we had comical breakfast.
Got away c. 9.0 via Poitiers to Tours
where we arr. for lunch. Some rain
before - wet - after lunch, a good one
at Café Bouré. There stopped along to
cath. which is very elaborate ornate
outside - int. inside with extra double
amb. instead of regular transept.
Also found cloister wh. have many
pieces of older cath. Stair, circular,
of Fr. I - gallery above cloister. Very
wet so got into car - set out for
Amboise, had scraper put in order.
Splendid chateau, chapel L. de B.'s
tomb in floor, then chateau wh. has
been much but well restored, prop.
of Orleans family - a beautiful place

but too wet to visit gardens. In spite of
showers had fine views on river. Loire
seems very low on banks - has many
sand bars in it. Crossed bridge, on to
Tolvois with fine view of C about
1/2 way on other side river. At Tolvois had
to go with huge mob. Built round
big court, chapel, garden with formal,
trees, 5 periods of const. centuries,
circ. stair Fr. I. Many historical
things, but in general these places
seem very ornate - well decorated.
Nearly 6 when we left - hit it up for
Chartres, cleared to a beautiful ex.
Last part drive more int. than first,
main road - come fast. Arr. Grand
Monageon c. 7.00 - had fine room
w. balcony, but leak in ceiling - fell
into bathroom so had to move to
another. Good dinner, diary.

Write H.

6. Fine, cooler & very breezy. Late start, then off on foot to bank. Left L then R. Bob went to cathedral. Magnif. view of facade, plenty of room to see it. Spent long time studying it - closer, very chilly. Glad to have read I & A but of course couldn't remember all Service for all little girls in vicinity, thousands of them, with candles, so made great sight. Cardinal-bishop. Nothing written about C. is too good for it. Windows magnificent. Were able to cruise all round and see as much as we could hold. Later up to triforium while last of procession was going out. but via S. porch - later to crypt, then garden & N porch - pens - again. Could spend a long time there - left 11

- back to hotel for lunch. Arr. c. 1.45 and via Alueon, saw cath. facade there, passed no' many villages, up & down country, farms, woods. Took little road to N. S. M. round bay, a fine view of it, then along causeway - to beach. Pontons parked took things. ^{No. 1} Good room w. bath. Arr. c. 6 - had late tea, then a walk up narrow street full of shops, while P. took car to garage. Dined incl. farmers one letter & langouste. Call it a day - write diary. Forgot to say saw Gite Guillaume in cycling round started as we left - had splendid view of cath. from below.

7. Rain early, let up. Walked up to top via steps & joined 9/2 party starting in old Annemie. Splendid tour all round & even up dentalle, much breeze but

no distance for view. This is another place equal to all reports, pity to be able to spend short time but had an excellent guide. Raining again so did museum, & periscope - got fairly dry to hotel between drops. Early lunch off by 1 1/2 or so for Caen - it cleared up. There c. 4 and first to St. Etienne, fine plain facade, fine towers. Lyc. Malherbe now in monastic buildings, fine staircases, refectory etc - views of ext. Good woman guide. Chief feature church is huge triforium arches almost as big as lower ones. All Rom. parts in these are fine, must say get fed up w. so much Goth. additions. To Trinity, more slab facade unfin. towers. Noble dice in mon. Killing old woman. Tomb Malibda Church: at choir, long choir, Rom.

Back to Caen & on for Rouen, lunch little rest. in Loguë, via Port e' Evreque & on to Jumièges, crossing Seine in a little ferry. All fine wooded country. Jum. splendid ruined abbey more like those in Eng. narrow streets, good mus. with fags etc. Rouen c. 4 and to Pote, room on front
